Customfurnish, Hyderabad IN (Remote)

UI/UX Designer | January 2024 – Present

- Led full redesign of CustomFurnish.com, improving product visualization and driving a 37% increase in lead-to-sale conversion rate.
- Conducted qualitative & quantitative UX research with 50+ customers & 10+ interior designers, reducing bounce rate by 40% and improving navigation speed by 25%.
- Designed and delivered MyDeziner, a SaaS tool enabling real-time property layout and material management, cutting designer workflow time by 60%.
- Built interactive high-fidelity Figma prototypes for usability testing, achieving a 96% task completion rate.
- Reduced designer workflow time by 60% through drag-and-drop material changes and bulk asset management features.
- Built interactive high-fidelity prototypes in Figma for usability testing, resulting in a 96% task completion rate among test users.
- Collaborated closely with engineering to ensure pixel-perfect implementation, leading to a zero major UX issue rate at launch.

Ricoz, New Dehli IN (Remote)

UI/UX Designer | June 2023 – December 2023

- Redesigned the AdsImpact dashboard, improving campaign management clarity and reducing navigation friction.
- Delivered responsive mobile layouts using component-based design systems within agile sprint cycles.
- Worked cross-functionally with devs and product teams to test and refine UX using live design data and A/B insights.

Yalla Gai, Gaza IL (Remote)

Freelance UI/UX Designer | October 2022 – May 2023

- Designed end-to-end user flows for trip booking, live tracking, and real-time driver support.
- Simplified mobile navigation and improved app usability through wireframes, prototypes, and user-tested design iterations.

Genic Technologies, Hyderabad IN (Remote)

UI/UX Designer | April 2022 – September 2022

- Created interactive prototypes and redesigned flows for Shruh, an internal SaaS product.
- Participated in usability testing and implemented feedback-driven design improvements across key modules.
