SUMMARY

Senior Product Designer with 5 years (approx) of experience designing SaaS, enterprise, and consumer products across B2B and B2C platforms. Expertise in end-to-end product design, UX research, wireframing, prototyping, usability testing, and design systems. Seeking a Senior Product Designer role to create intuitive, scalable user experiences that improve usability, increase conversions, and drive measurable business outcomes.

EXPERIENCE

Senior Product Designer | Groundhog Apps

October 2025 – Present

- Redesigned Level 5 open-pit mining workflows, **reducing user interactions by ~30%** and **improving workflow efficiency by ~25%**.
- Redesigned the LMS onboarding experience, **increasing onboarding completion by ~30%** through data-driven UX improvements and Microsoft Clarity insights.
- Reimagined the Underground Operator app, simplifying mission-critical workflows with glove-friendly, low-light-optimized interfaces.
- Led end-to-end product design for 3 enterprise mining products and contributed across 9+ products spanning Open Pit and Underground operations.
- Partnered with Product Managers, Engineers, and enterprise customers to deliver scalable solutions and evolve a shared design system across 10+ mining products.

UI/UX Designer | Customfurnish

January 2024 – July 2025

- Led end-to-end product design for a B2C platform, **increasing lead conversions by ~38%** and **reducing bounce rate by ~27%** through A/B testing
- Redesigned user journeys and information architecture to improve property **discovery speed by ~3x**
- Built and scaled a reusable design system, reducing development rework and **accelerating feature delivery by ~50%**
- Collaborated closely with product, engineering, and business stakeholders to align UX decisions with growth metrics

UI/UX Designer | FirstRicoz

January 2023 – December 2023

- Redesigned Adslmpact dashboard simplifying campaign workflows
- Translated usability insights into actionable UI improvements

Freelance Product Designer | YallaGai

February 2022 – December 2022

- Led end-to-end trip booking and tracking flows
- Enhanced mobile usability through validated design iterations

EDUCATION

Bachelor of Technology (Computer Science)
