Experience

CustomFurnish

Jan 2024 - Present

Product Designer

- Transformed the company’s digital interface with a premium UX/UI overhaul, boosting inbound leads by 40% and improving engagement across mobile and desktop platforms.
- Built a client-focused design tool incorporating 3D previews and customizable template libraries, leading to a 30% reduction in project turnaround time.
- Developed a modular design system from the ground up, cutting design-to-development collaboration time by 50% and ensuring visual consistency.
- Worked directly with PMs and QA teams to align design deliverables with sprint goals, reducing post-launch bug reports by 30%.
- Conducted stakeholder workshops and usability tests to gather actionable insights that directly shaped key feature updates.
- Took ownership of end-to-end design delivery and mentored one junior designer on UI systems and workflow best practices.

Ricoz

Jul 2023 - Dec 2023

UI/UX Designer

- Optimized Adslmpact, improving campaign efficiency by 35% with data-driven dashboard redesigns.
- Revamped mobile layouts for Adslmpact using component-based design, increasing responsiveness and mobile retention by 20%.
- Built mobile-first designs in agile sprints, using A/B testing to validate component-level performance improvements.

Yalla Gai

Oct 2022 - May 2023
