EXPERIENCE

Product Designer

Customfurnish / January 2024 – Present / [View Case Study](#) →

- Led end-to-end redesign of the CustomFurnish website, increasing lead conversions by 38% and reducing bounce rate by 27% through improved hierarchy and streamlined navigation.
- Developed a 3D SaaS interior design tool that cut task time by 60%, enabling designers to manage room-wise/global properties in one-click workflows.
- Introduced a “Copy Material” feature with options like for precise material reuse across objects.
- Implemented a property-level search system that improved object lookup speed by 3x, enhancing UX for 200+ design elements.
- Developed a modular design system from scratch, improving consistency and accelerating collaboration with developers.
- Worked cross-functionally with PMs, QA, and leadership to ship features aligned with sprint goals and long-term vision.

UI/UX Designer

Ricoz / June 2023 – December 2023

- Redesigned the Adslmpact dashboard to improve clarity and efficiency for campaign management.
- Delivered responsive mobile layouts using component-based design in agile sprints.
- Collaborated with developers and product teams to test and iterate components using design data.

Freelance Product Designer

Yalla Gai / October 2022 – May 2023

- Designed intuitive user flows for trip booking, tracking, and real-time driver support.
- Focused on simplifying navigation and improving the mobile app experience through low- and high-fidelity prototypes.

UI/UX Designer

Genic Technologies / April 2022 – September 2022

- Created interactive prototypes and redesigned user flows for Shruh, an internal product.
- Participated in user testing and implemented feedback-driven design enhancements.

Graphic Designer

Ha’ Pizza / June 2021 – November 2021

- Created cohesive branding assets for social campaigns across multiple platforms.
- Maintained design consistency while experimenting with visual layouts to improve engagement.

EDUCATION

BVC Engineering College / June 2019 – April 2023

Bachelor Of Technology (CS) with 80% grade

Narayana Junior College / June 2017 – April 2019

Senior Secondary with 93% grade

CERTIFICATIONS

- UX Design Master Course – Growth School
- User Digital Experience Certification – Accenture
- Advanced UX Design – Great Learning

SKILLS

Product & UX Design

User flows, Design sprints, UI Design, Usability testing, Wireframing, Prototyping, Responsive Design, Information Architecture, Conversion Optimization, Design Systems, Cross-functional Collaboration, Design Thinking, End-to-End Product Design, Stakeholder communication

Research & Strategy

User Research, Heuristic Evaluation, A/B Testing, Accessibility (WCAG), DesignOps, Product-Led Growth, Agile

Tools & Technologies

Tools: Figma, Adobe XD, Illustrator, Photoshop

Tech: Google Analytics, Mircosoft Clarity, HTML/CSS

Others: Miro, Balsamiq, InDesign

Languages

English- Bilingual

Telugu- Native

Hindi- Professional
